

# Research Epidemiologist, Epidemiology Waltham, MA, USA

## About RTI

RTI is an independent non-for-profit research institute dedicated to conducting innovative, multidisciplinary research that improves the human condition with a worldwide staff of more than 4,150 people (<http://www.rti.org/>). Universities in North Carolina founded RTI in 1958 as the first scientific organization in and centerpiece of the Research Triangle Park, NC, USA. The Pharmacoepidemiology and Risk Management team, (<https://www.rtihs.org/services/pharmacoepidemiology-and-risk-management>) is currently based in the US (NC, MA), and Spain (Barcelona).

## Job Description & Responsibilities

We are looking for a candidate with the right combination of skills, experience, abilities, and cultural compatibility for the conduct of pharmacoepidemiologic research and risk management. This individual will contribute or co-lead directed by or in collaboration with a Senior Epidemiologist projects with particular emphasis on field and database studies of medication safety including risk minimization evaluations by:

- Designing and writing proposals
- Designing studies, writing protocols and analysis plans
- Analyzing results, writing study reports and manuscripts
- Contributing to and coordinating interactions with clients and research partners

Work may also include project planning and start-up, data collection and processing, and other management and research tasks. The position is based in Waltham, Massachusetts, USA

## Qualifications

- PhD in Epidemiology or equivalent. Life sciences background and experience is highly valued
- At least 4 years of relevant experience. Prior experience working within a pharmacoepidemiology or relevant field research organization/institution is highly valued
- Demonstrated effective communications (written, verbal and presentation skills) in a cross functional collaborative environment. The working language is English. Additional languages are highly valued
- Ability to perform duties that require close attention to detail
- Ability to establish and maintain effective working relationships with co-workers, supervisor, technical staff, research partners and clients
- Ability to operate in a team environment and be flexible in taking on and performing assignments as necessary

To apply for this position please visit the recruitment page on the RTI web site <http://m.rfer.us/RTIYbs133> and provide **CV and letter of interest**.
