News Announcement for ENCePP Website:

Launch of Database of Data Sources

On 7 May 2010 the European Medicines Agency launched version 2.0 of the ENCePP Database of Research Resources. This release includes the **electronic inventory of EU data sources in ENCePP** plus a number of improved functions to the inventory of research centres and networks in ENCePP which was launched in January 2010. The database will be populated over the coming months with details of data sources.

The ENCePP Database of Research Resources is available at the ENCePP web portal to the general public and research organisations, networks and data set owners are encouraged to register via the website.
